

Nanjing
China

Global Conference on Pharmacy & Pharmaceutical Sciences Education

7-8 November 2016

Creating a Global Vision, for a Global Workforce!

Join us in Nanjing to set the future milestones for education and workforce development for pharmacists and pharmaceutical scientists!

Together we will transform pharmacy!

Global Conference on Pharmacy and Pharmaceutical Sciences Education

WHY?

The Global Conference will make a significant contribution to improved global health outcomes by ensuring that the pharmacy workforce is appropriately educated and competent to close gaps in the development, distribution, and responsible use of medicines.

CHINA

The country is going through a major reform in pharmacy education, and the international community can benefit from the findings of this innovative and valuable environment.

Visit CPU – The biggest Pharmacy University in China.

OUTCOMES

The documents published at the Global Conference - **Workforce Development Goals and Professional Statements on Education** - will activate and give purpose to the workforce vision in order to frame and contextualise the future direction of the profession
