

# Global Conference on Pharmacy & Pharmaceutical Sciences Education

7-8 November 2016

The **International Pharmaceutical Federation (FIP)** is hosting the first-of-its-kind Global Conference on Pharmacy and Pharmaceutical Sciences Education. Together we will set the future milestones for education and workforce development of pharmacists and pharmaceutical scientists.

---

## Join us in Nanjing

FIP has selected 40 country delegations in order to have a broad representation of the different needs of the pharmacy workforce, education systems and cultural and language aspects. But **you as an individual may can also join the conference** to give important input into the discussions. You will also have full access and are able to take part in the workshops. The only difference is that individuals are not able to vote.

The conference will create a dialogue and consensus among practice, science, education leaders and regulators on how pharmaceutical workforce competence can be assured through education.

## Get involved!

You will have the opportunity to provide input on the following documents **before the Conference**:

- Global Vision for the Workforce and Workforce Development
- Pharmaceutical Workforce Development Goals;
- Professional Statements on Pharmacy and Pharmaceutical Sciences Education

The draft documents are now available for consultation:

[www.fip.org/nanjing2016/public\\_consultation](http://www.fip.org/nanjing2016/public_consultation)

(deadline 15 August 2016)

For the full conference program please visit our website.

## Outcomes: Improving global health and workforce development through education

After the conference, together with our partners, FIP will lead the adoption of a clear roadmap on which the international community can rely to advance education and training.
